

Configuring an Admin Avatar for the Staff Online Widget

Admin users can add a custom avatar above their names in the **Staff Online** widget in the Admin Area Dashboard. This image will also display in the upper right-hand corner of the Admin Area for the **Accounts** menu.

Admin avatars use the Gravatar service.

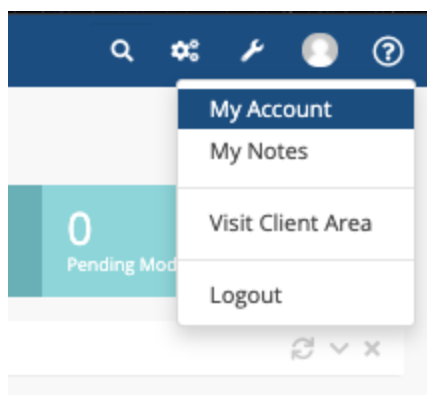

If WHMCS cannot find a matching Gravatar account, it displays a silhouette icon.

Add or Update a Gravatar

To change your avatar, you will need to register a Gravatar account using the admin's email address:

1. Log in as the admin in the Admin Area.
2. Click the profile icon in the upper right-hand corner and select **My Account**.

3. Note the displayed email address. This is the email address to use to register a Gravatar account.

4. Register an account with Gravatar and set a profile image. For more information, see [Gravatar's documentation](#).

5. Refresh the Admin Area Dashboard. The **Staff Online** widget and the **Account** menu will display the new Gravatar image:
